

Music studio 2/481 Ryrie St. Geelong East

CovidSafe Plan 23/01/22

Physical distancing measures in place.

A perspex screen has been attached to the music stand as a barrier (pic 2). Students will have a separate music stand (pic 3) and can maintain a 1.5 metre distance.

Teacher & student only in the music room.

I'd like to ask that only students come into the house. For families that may mean that students are dropped off at the door or driveway. **Entry via the Garden Gate.** Please ring the bell.

Face masks please wear them to your lesson for all students 8 years and upwards.

Covid-19 safe hygiene measures. Hand sanitiser, disinfectant wipes, tissue box and separate rubbish bin are on hand. There will be a timetabling gap between students with no crossover or waiting period. Cleaning and sanitising of surfaces such as door handles to take place. Windows will be kept slightly open for ventilation. The studio has a Co2 monitor and an air purifier. Students can bring their own water bottles and tune their own instruments with guidance.

What to do if feeling unwell.

In line with the Department of Health and Human Services [Victoria | Staying safe](#) advice, if students are unwell with general cold/flu like symptoms, please do not attend your lesson and alternative arrangements can be made. If you have already paid for a lesson then you can reschedule, cancel or have an online lesson instead.

Students' music stand. pic. 3

Lesson payment changes.

Invoices for lessons will be made out for 5 weeks rather than the whole term. This will allow for more flexibility regarding missed lessons etc. Fees are payable by the 3rd lesson unless prior arrangements have been made

Online lessons and face to face lessons available.

I will continue to offer online lessons via Zoom and it is up to you which method of delivery you'd like to choose.

Thank you for your time and care in reading

this. Please contact me if you have any questions. Cathy Blake
